

# Death

## While polymorphed or shape changed

Unless the ability explicitly states so, the creature does not change form upon death.<sup>1)</sup>

Whether a creature can be raised from the dead by *raise dead* or *resurrection* depends on its original form. For example, a human druid who died while [shape changed](#) into giant bat form could be raised, but an elven or half-orc who died while [polymorphed](#) into a human could not.<sup>2)</sup> When the creature is raised, it will remain in the form it died in (including wounds and poison, as normal, unless the means used to raise state otherwise).

<sup>1)</sup>

Nowhere in the rules does it say this happens.

<sup>2)</sup>

Remember that elves and half-orcs can not be brought back by *raise dead* or *resurrection*, only a *rod of resurrection*, *wish*, or similar. See [Death](#) for more info.
